Draft School Board Budget Direction FY28

October 8, 2026

Arlington Public Schools

Draft School Board Budget Direction FY28

This draft reflects updates out of the budget work session on 9/29/2026, the Committee of the Whole meeting on early childhood held on 10/6/2026, and feedback received from the Finance Office and individual school board members.

Draft School Board Budget Direction FY28

The mission of Arlington Public Schools is to ensure all students learn and thrive in safe, healthy, and supportive learning environments. The School Board is committed to ensuring that APS implements efficient, effective, and sustainable system-wide operations to support the success of our students, staff, and community. The School Board, therefore, directs the Superintendent to prepare a balanced budget, based on the assumption that the school division's needs will not be fully funded by projected revenues.

Draft School Board Budget Direction FY28

The FY28 budget should:

- Align to the 2024-2030 Strategic Plan performance objectives and strategies.

- Prioritize recruiting, supporting, and retaining a high-quality and diverse workforce with a focus on compensation and benefits that are competitive within the regional market for specific roles, with an eye towards future budget years and anticipated ongoing fiscal challenges.

Draft School Board Budget Direction FY28

- Restrict new investments to items that directly advance performance objectives, including planning factor adjustments and early childhood adjustments (e.g., 2-year-old program for FY ’28 and other phased changes with pre-k special education) that addresses the urgency of improving educational outcomes for students with disabilities, English learners, and economically disadvantaged students. Additionally, the superintendent should include safety and security investments that address and support the needs identified in the Safety and Security Audit.

- Identify opportunities for cost savings via equity-based reductions, efficiencies, and realignment of funds whenever possible, rather than across-the-board percentage cuts.

Draft School Board Budget Direction FY28

The School Board further directs the Superintendent to provide detailed rationale for any material changes in the budget. Rationale for investments or reductions shall include:

- Anticipated outcomes, aligned to the strategic performance objectives; how the outcome will be measured; by whom; and on what timeline.
- Anticipated impact on students, staff, and/or schools; and how the reductions may inhibit progress on strategic performance objectives.
- The long-term trade-offs for budgetary action or inaction.

Draft School Board Budget Direction FY28

The budget should clearly indicate the methodology of how the cost per pupil is established, including:

- Additional details about changes in staffing in both the central office and schools; information about salary scales; and an explanation of how compensation and benefits are informed by collective bargaining.

- Contain a budget sheet with a clear per pupil comparison provided to our neighboring districts of Falls Church, Fairfax, and Alexandria, including what the City/County contributes vs. school system. Highlight for community members any Arlington specific programs or unique instructional opportunities that contribute to the cost per pupil.

- Provide three-year forecasts of revenues and expenditures to guide multi-year planning and gauge long-term financial sustainability, with a focus on recommendations for potential action in the coming years.

Draft School Board Budget Direction FY28

The Board further directs the Superintendent to minimize the use of general reserve funds for operating expenses, consistent with the principle that one-time funds should be used only for one-time costs. For FY28, no more than 10% of the reserve funds used in the budget will go toward ongoing operating expenses, with the exception that the Compensation Reserve Funds may be used for compensation purposes.

The Board anticipates that long-term reductions or efficiencies may become necessary in future years and directs the Superintendent to begin initial conversations with the Board around reductions or efficiencies that may be contemplated in the future.
