Secondary Math Basal Adoption Process and Timeline

- SY 2024-25
  - RFP conducted
  - Mathematics Basal Resource Adoption Selection Advisory Committee (SAC) and Basal Instruction Resource Review Committee (IRRC) reviewed materials and provided recommendations
  - June 2025 Mathematics basal adoption postponed due to budgetary constraints
- SY 2025-26
  - Pilot of two Algebra 1 products in ten middle schools
  - Basal Instructional Resource Review Committee (Completed May 2026)
  - Public Review Completed (Completed July 2026)
  - All recommended vendors are on the VDOE Approved List

Key Attributes of Selected Materials

- Engaging print materials with ample text features
- Alignment to Standards of Learning
- Strong vertical progression
- Clear, organized, consistent lesson structure
- Robust supports for student needs
- Print materials include QR codes or directions to supplemental digital supports

Summary of Public Review:
Savvas enVision and Cengage Titles

**draft based on July 1 responses. Will update when public review closes.*

- Direct SOL alignment and clear pacing
- Support for diverse learners and multilingual learners
- Breaking down content logically with useful example problems, independent practice options, math modeling tasks, and topic "check-in" quizzes.
- Incorporates real-world scenarios and problem-solving prompts designed to build critical thinking skills
- Print materials supportive and easy to use.
- Preference for hard-copy textbooks to reduce learning distractions and increase transparency for parents
