Proposed Amendment to Use Standards

Section 78-71.18 – Warehousing use category

(d) Warehousing

(1) Electronic Warehousing. For all electronic warehousing uses, exterior areas devoted to auxiliary generators shall be screened on all sides by a brick or block enclosure that matches the exterior color of the principal building. Telecommunications uses and related electronic and mechanical equipment are subject to the following standards:

(a)Equipment area. The area for equipments shall be designated on a site plan and shall occupy at least 2,000 square feet and no more than 40,000 gross square feet of floor area ~~within a single building~~.

Rationale for the Amendment

- Updates outdated language from 2007
  - ZOTA #06-03
- Provides consistency across zoning districts
- Consistent with the Transit Related Growth Small Area Plan
  - CPA #23-01

Recommendation

- Recommend *approval* of Zoning Ordinance Text Amendment ZOTA #25-03.
