Board of Supervisors
Safety and Security Committee

September 22, 2026, 9:30 AM
Government Center Conference Room 11

Board of Supervisors (Board) Members present:

Rodney Lusk, Franconia District (Committee Chair) – In Person
Jeff McKay, Vice-Chairman – In Person
Walter Alcorn, Hunter Mill District – In Person
James Bierman, Dranesville District – In Person
Pat Herrity, Springfield District – In Person
Andres Jimenez, Mason District – In Person
Dalia Palchik, Providence District – In Person
Rachna Sizemore-Heizer – In Person
Kathy Smith, Sully District – In Person
Dan Storck, Mount Vernon District – In Person

The Safety and Security Committee (Committee) meeting was called to order at **9:30 a.m.**

Fairfax County Police Department Noise Abatement Pilot Program Update: 9:32 a.m.

Deputy Chief Jeff Reiff, Operations Support Bureau Commander, FCPD presented on the Noise Abatement Pilot program that FCPD is working to implement. The presentation included a review of the legislative process, including the adoption of HB 55, which took effect on July 1, 2026, and authorizes noise abatement monitoring systems.

Deputy Chief Reiff reviewed the solution FCPD will pilot, including details on the noise abatement camera, which includes both microphones and cameras and captures pictures and video. Each capture is verified through two independent reviews by Blue Line Solutions before being sent to FCPD for final review. Of note, unlike our photo speed program, which allows retired officers to serve as reviewers, the noise abatement cameras require certification by current law enforcement officers.

Chief Reiff reviewed program specifics, including signage, the 95-decibel threshold, and fines not to exceed $100. Citations are administrative and civil and do not affect DMV records.
FCPD will conduct a 90-day pilot consisting of a 30-day warning period followed by 60 days of enforcement. Two cameras will be deployed, one in the Tysons Corner area and one in the Hybla Valley area. Locations were selected based on current citation data and the vendor's recommendations, to allow proper evaluation of the technology.

FCPD is ready to submit the permit package to VDOT. Once VDOT approves, Blue Line Solutions will complete installation, and the final step will be Dominion Energy connecting electricity to the cameras. FCPD expects to begin the pilot by the end of December or early January, depending on the permitting process. Blue Line Solutions will train FCPD staff and provide public information and education templates. FCPD will work with OPA to complete outreach notifications and public messaging.

Future expansion will depend on the outcome of the pilot. FCPD is currently working with DPMM on an RFP for photo speed and noise abatement, which is expected to be issued in the spring, when FCPD will have pilot data. A NIP will then be sent to the Board of Supervisors with results and recommendations for expansion, including board feedback on locations.

Board members asked questions about:

- The technology
- The accuracy of the technology
- Feedback from other jurisdictions using the technology
- Data privacy, including the need for the County Attorney's Office to review the contract before it is signed, which is required before the permits can be submitted to VDOT

Deputy Chief Reiff, Major Matt Lane, and Sargent Darrell Estess responded to questions from BOS members.

Additional Information: N/A

The Committee meeting adjourned at **10:36 a.m.**

The next Committee meeting is October 20, 2026, at 1:30 p.m.
