Secondary Math Basal Adoption Process & Timeline

SY 2024-25

RFP Conducted

The formal Request for Proposal process was initiated and executed.

Committee Review & Recommendations

Materials reviewed and recommended by the Selection Advisory (SAC) and Basal Instruction Resource Review (IRRC) committees.

Postponement

June 2025 Mathematics basal adoption postponed due to budgetary constraints.

SY 2025-26

Algebra 1 Pilot

Pilot of two Algebra 1 products implemented in ten middle schools.

IRRC Committee Process

Basal Instructional Resource Review Committee completed evaluation in May 2026.

Public Review Complete

Public review process concluded in July 2026.

VDOE Approved List

All recommended vendors are on the VDOE Approved List. Adoption from VDOE list does not require an RFP.

Key Attributes of Selected Materials

- Engaging print materials with ample text features
- Alignment to Standards of Learning
- Strong vertical progression
- Clear, organized, consistent lesson structure
- Robust supports for student needs
- Print materials include QR codes or directions to supplemental digital supports

Summary of Public Review: Savvas enVision and Cengage Titles

- Direct SOL alignment and clear pacing
- Support for diverse learners and multilingual learners
- Breaking down content logically with useful example problems, independent practice options, math modeling tasks, and topic "check-in" quizzes.
- Incorporates real-world scenarios and problem-solving prompts designed to build critical thinking skills
- Print materials supportive and easy to use.
- Preference for hard-copy textbooks to reduce learning distractions and increase transparency for parents
