Keeping Students on Track for Graduation

FCPS offers students multiple pathways for students to recover credits, build momentum, and stay on track toward earning their high school diploma.

- MTSS and interventions throughout the school year
- Credit Continuation to demonstrate course mastery
- Extended programs to prepare for End of Course exams
- Summer Credit Recovery Academy

Credit Recovery Academy

- Support for students to earn course credit **after they have failed a course**
- Centralized sites during the summer that provides students opportunities to meet the state requirements for recovering a credit or prepare for an End of Course (EOC) exam
- Hands-on learning, inquiry-based projects, cross-curricular collaboration
- Provides wrap-around services for students

1089
Students participated and recovered credits

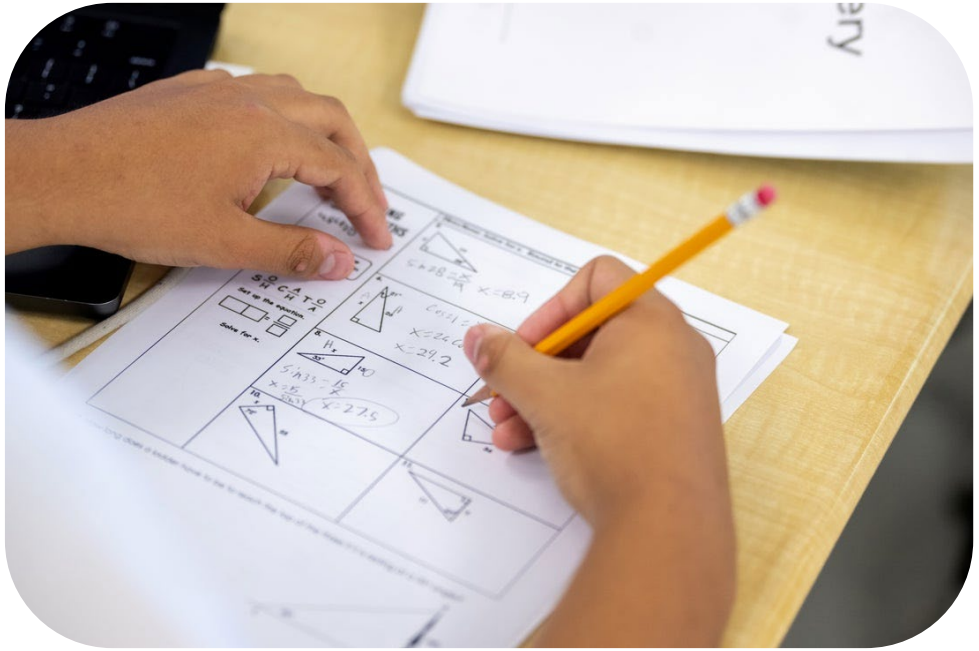

98.6%
Students who passed a CRA course

Credit Recovery Academy

Credit Continuation

- New pilot program that provides support for students **at-risk for failing**
- School-Based services that provide additional opportunities for students to earn course and verified credits through additional time to demonstrate mastery of standards
- Flexible models that combined targeted academic support, strong student relationships, and individualized or small-group instruction to help students master state standards and remain on track for graduation
