The plan for the layout is for there to be 3 stations. The stations include a mirror, a salon chair, and hair treatment equipment. This is what it will look like (attached picture). I plan to put a station in office #1, #2 and the room that mirrors office #2 that reads “sloped ceiling”. The entire place is 1081 sq. ft. so we have plenty of space for a waiting room that is labeled office #3 and a color/ wash station that’s labeled office #4. Everything is planned for efficient and easy flow for our appointments. As far as hair color and haircutting services are concerned, they will be provided in the three offices I mentioned earlier.
