TOWN OF HERNDON, VIRGINIA
TOWN COUNCIL

RESOLUTION

APRIL 28, 2026

Resolution- to Adopt the Town of Herndon Roadway Safety Action Plan.

Traffic deaths and injuries on our streets are unacceptable. With this in mind, the Town's 2029 Strategic Plan establishes a goal for a convenient and safe interconnected multimodal network. This goal should be achieved through supporting a shift in user mode choice, a focus on developing a thriving community, and with strategies that support economic development. The Town Council seeks to use a Vision Zero framework with application of the Safe Systems approach: Safe Road Users, Safe Vehicles, Safe Speeds, Safe Roads, and Post-Crash Care.

With the above goals and basis of strategy, the Town of Herndon prepared the Roadway Safety Action Plan. The plan is based on data, formulated using community input, and prioritized considering feasibility. The result is a list of infrastructure and programmatic actions to eliminate fatalities and serious injuries on town roads by 2038.

THEREFORE, BE IT RESOLVED by the Town Council of the Town of Herndon, Virginia that:

1. The Town will adopt a goal to eliminate all traffic deaths and serious injuries on town roadways by 2038; and

2. Furthermore, the Town of Herndon Roadway Safety Action Plan is adopted.
