Roadway Safety Context

Safety Action Plan Components

- Comprehensive safety analysis for all Town transportation facilities
- Considers all modes of transportation and all types of users
- Will include robust community involvement
- Requirements for a Federally-compliant Safety Action Plan:

Leadership Commitment and Goal Setting

Planning Structure

Safety Analysis

Engagement and Collaboration

Policy and Process Changes

Strategy and Project Selections

Progress and Transparency Methods

ADA Transition Plan

- Infrastructure Self Assessment
- Review every inch of the Town's Public right-of-way for compliance (e.g. sidewalks, curb ramps, and crosswalks)
- Result in a prioritized list of actions to improve accessibility for users with disabilities and move the Town towards full compliance

Roadway Safety Studies

- Resulting from the Safety Action Plan, pick one or two focused corridors of need/study
- Conduct a full technical analysis and detailed audit of roadway safety
- Prepare improvement concepts and conduct engagement with the public
